

## Hobbico Flitt Flying Camera

### Fly. Shoot. Share.

The Flitt flying camera and app are like having your own personal red carpet photographer on demand all day every day. It's small, innovative, and designed for fun.

Optical positioning delivers stable pics indoors or out. Plus, Flitt is equipped with three flight modes to tailor every flight to your comfort level. Built-in photo modes maximize your snapping ease. Quick, easy, safe; fly, shoot, share!
