

HPI Racing 1/32 Q32 Trophy Truggy

Mini size, mighty fun

Small size, easy control, and innovative features make the Q32 Truggy perfect for anyone looking for fast fun. This beauty comes with a new body, cool rear wing, and a tough roll cage.

Everyone can enjoy RC fun, indoors and out, with the blasting power of the Q32! You can drive it anywhere you like thanks to racing dish wheels, high grip foam tires, and a powerful rear-wheel drivetrain. It's light, fast and agile.

Plus, at just under five inches in length, it's perfect for racing in confined spaces like garages, dining rooms, or at the office. Charge the battery straight from the TF-60, 2.4GHz radio transmitter and in just minutes you're ready to zip around the included corner markers and over the mini ramp!

Features

- Rear wing and mount
