

## HPI Racing 1/10 Scale RS4 Sport 3 Drift Vaughn Gittin Jr. Fun-Haver Ford Mustang RTR

HPI Racing's proven RS4 Sport 3 chassis has a new look that is both bold and very recognizable. An officially licensed scale replica of Vaughn Gittin Jr.'s 2017 Mustang body gives this on-roader one-of-a-kind looks, complete with his newest livery colors and sporting Tech 7 neon green rims. Performance-wise, you'll enjoy all of the advantages the RS4 Sport 3 is known for. The Firebolt 15T motor is mounted next to the drive shaft for greater balance. All-metal gears in the diffs provide positive power transfer. To protect against the elements and severe track conditions, the shaft-driven 4WD drivetrain is completely enclosed, and all on-board electronics are waterproof.

This is one drifter that has the looks to match its lineage. Visit [hpiracing.com](http://hpiracing.com) to find out more.

HPID5984 1/10 RS4 Sport 3 Vaughn Gittin Jr. 2017 Mustang RTR \$269.99

### Features

- The single piece composite chassis allows for a lower profile and center of gravity for improved cornering
- Just like on a real car, the ball bearing-supported driveshaft is directly down the center — and easily accessed from underneath
- The battery box accepts standard LiPo batteries as well as 7-cell NiMH
- Adjust the battery's position for extra traction or sharper steering
- Enjoy exceptional handling with the RS4 Sport 3's double wishbone suspension and oil-filled shocks
