

HPI Racing Jumpshot MT FLUX Fuzion Brushless 2WD Monster Truck RTR

Get ready to experience a quantum leap forward in monster truck performance! The Jumpshot MT FLUX Fuzion combines a brushless motor and ESC in one compact, high-powered unit. That means an increased power-to-weight ratio, for faster speeds, bigger air — and even more fun! A double-wishbone suspension, oil-filled shocks and sturdy gear diffs are just a few of its quality extras, and it comes already assembled so you can be out bashing in no time. Visit hpiracing.com for all the details.

HPID6210 Jumpshot MT FLUX Fuzion 2WD Monster Truck RTR \$249.99

Features

- The FLUX Fuzion 2700kV brushless motor and LiPo-ready speed control take up the same space as a standard 540-size motor by itself
- Beside being smaller and lighter, the motor/ESC combo is more user-friendly and offers a cleaner installation with fewer wires
- Take on any off-road surface with the Jumpshot's proven tough TVP (Twin Vertical Plate) chassis and durable 2WD drivetrain
- Large all-terrain tires mounted on 6-spoke chrome wheels
- Enjoy effortless control with robust direct steering
- The battery compartment is easy to access, for quick pack changes
