

## Tactic TTX200 2-Channel 2.4GHz SLT Surface Radio

The included TR325 micro 3-channel receiver is small enough to fit in the smallest chassis spaces.

It has the features and functions needed for starting out in RC, at a price that fits into any beginner's budget. The TTX200 takes up very little room in a vehicle carrying case, and its light weight makes it comfortable to hold. Setting the TTX200's controls is as easy as pushing a button. Proven reliable Secure Link Technology (SLT) is standard – and you also get value-adding extras such as the foam grip steering wheel and 3-channel TR325 micro receiver.
