

Tactic TTX660 6-Channel 2.4GHz SLT Computer Radio

Now you can fly almost any type of RC aircraft with one radio: the TTX660 from Tactic. Airplanes, helicopters, even many of today's popular drones can be controlled by this sophisticated system.

Programming is a breeze, and memory for 30 models is a real bonus. Two sliding levers and a proportional dial are ideal for precise control of flaps and FPV cameras. The large graphing LCD screen has adjustable contrast and blue backlighting for easy viewing. You get all that and more, plus the benefits of proven reliable Secure Link Technology that eliminates interference with the push of a button.

When you combine the TTX660's advanced functionality with its budget-friendly price, you have a radio that's an exceptional value — and the ideal system for any intermediate-level sport pilot. Get all the details by visiting tacticrc.com.

TACJ2660 TTX660 6-Channel 2.4GHz SLT Computer Radio \$139.99
