

PARADISE™

READY-TO-RUN R/C SAILBOAT

Sail for pleasure — leave work behind.

It's the ultimate R/C pleasure cruise! Not only does the Paradise come with radio system already installed, but even the rigging has been done for you. Factory-finished, the model requires no sanding or painting...and because it's powered by the breeze, you'll need nothing more than a few ordinary "AA" batteries to get your voyage under way.

- *Assembles quickly — factory-finished, with radio gear and ballast installed.*
- *Lightweight, strong fiberglass hull arrives beautifully factory-finished.*
- *Low-drag keel and boom disconnect for easy transporting.*
- *Available in six different colors!*

Radio by

Futaba®

The included 2-channel, 2-stick AquaCraft by Futaba radio provides rudder and sail control. Among its high-quality features: Servo reversing, battery status LED, and charging jack for optional NiCds.

A unique, elliptically shaped stand is included for secure, attractive model display. The beautiful fiberglass hull comes ready to enjoy, with trim scheme applied and accessories installed — no time-consuming sanding and painting needed.

All of the on-board electronic components have been factory-installed and are easily accessible from the deck hatch. (Batteries are not included.)

The boom and mast are made of strong, rigid, and attractive aluminum. Durable ripstop nylon forms the sails, with bright graphics printed on the material. Rigging has been completed for you — just match the lines to numbered locations, and clip them in place!

HCAB01**
Length: 26 in (660mm)
Height: 50.5 in (1283mm)
Beam: 5.25 in (133mm)
Weight: 3 lb (1360g)
Requires: 12 "AA" batteries

More easy ways to ride the waves.

**STRIKE HARD, STRIKE FAST
 WITH TUNED PIPE POWER!**

**FIBERGLASS
 deck and hull!**

Whether you're a new modeler or one who's more interested in action than assembly, the Nitro Hammer hits the nail on the head for convenience and ease. Virtually everything is included and factory-installed. That goes for the provided, Futaba®-made radio system as well as the recoil-started AquaCraft marine .15 engine and tuned pipe. Plus, the fuelproof fiberglass hull and deck are prejoined, finished in one of six trim schemes and gel-coated for protection. A FREE engine break-in video makes it easy to get (and keep getting) the maximum punch from the marine .15. An included stand doubles as a work station for maintenance and a display stand for admiration.

HCAB26** • LENGTH: 24 in (610mm) • BEAM: 8.75 in (220mm)
 REQUIRES: 20% glow fuel, 12 "AA" batteries and support equipment

POWERED BY AIR — FUELED BY FUN!

**AQUACRAFT'S ORIGINAL
 FIBERGLASS RTR!**

For simplicity and ease, call in the Air Force! Virtually everything is included and ready to go. The hand-laid fiberglass hull and deck are finished in one of six sizzling color schemes and protected by a high-quality gel coating. Receiver and servos are included with the supplied 2-channel radio system and factory-installed. The provided AquaCraft Pro .46 ABC BB engine comes with glow plug, tuned muffler and dual-needle carb with a remote, high-speed needle. Installed hardware is made from rust- and corrosion-resistant stainless steel. It's an easy, affordable "first float" for new modelers...complete with FREE engine video and display stand/carrier!

HCAB27** • LENGTH: 30.5 in (775mm) • BEAM: 13.5 in (345mm)
 REQUIRES: Fuel, 12 "AA" batteries & support equipment

SELF-RIGHTING HULL DESIGN!

You don't need a lot water — or building ability — to enjoy R/C boat racing at its best, thanks to the Reef Racer. It comes already assembled and ready to go, complete with radio, motor...even an ESC. A preinstalled direct-drive system makes efficient use of the boat's powerful motor, and even at top speeds, the Reef Racer turns on a dime, making it perfect for small ponds and lakes. The Reef Racer is available in six different colors and frequencies, making it a great boat to race with your friends. A self-righting hull design enables it to "auto-recover" from rolls and flips for nonstop action!

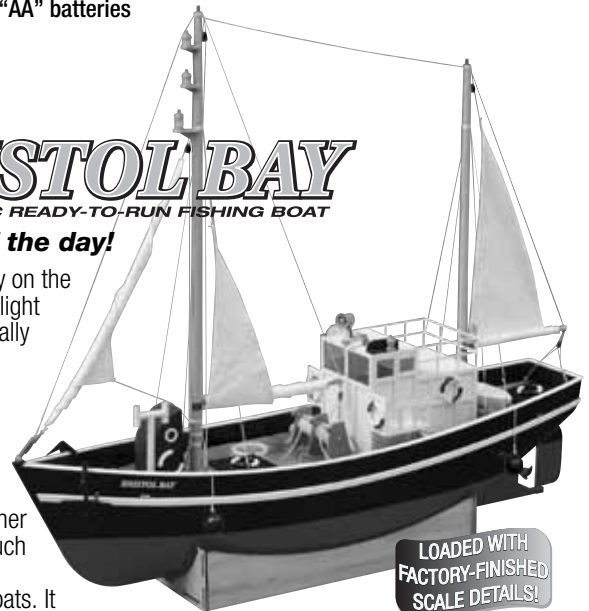

HCAB12** • LENGTH: 15 in (380mm) • BEAM: 6 in (152mm)
 REQUIRES: 8 "AA" batteries

ELECTRIC R/C READY-TO-RUN FISHING BOAT

The catch of the day!

Put the Bristol Bay on the waves, and it will light up the water, literally and figuratively. Factory-installed bulbs (controlled by their own switch) make it happen, but this boat shines for other reasons, too — such as the likeness to full-size fishing boats. It starts with the profile, and goes on to include static cloth sails for the rigging; a wooden deck; a lifeboat on the davits; and life preservers on the outer cabin. From rigging to paint on the fiberglass hull, finishing is all factory-done. What's more, the hull comes with a 550-size electric motor, direct-drive system, servo, receiver — and an ESC that offers smooth control in forward and reverse. As if that weren't enough, we also include a 2-channel radio made by Futaba®!

**LOADED WITH
 FACTORY-FINISHED
 SCALE DETAILS!**

HCAB60** • LENGTH: 33.5 in (851mm) • BEAM: 8.8 in (222mm) REQUIRES:
 6-cell battery, charger, & 10 "AA" batteries
