 Length: 24 in (610mm)  
 Beam: 8.75 in (220mm)  
 Requires: 6-7 cell battery, charger & 8 “AA” batteries

# HAMMER™

R/C READY-TO-RUN ELECTRIC DEEP VEE

**IT'S A HIT — FOR FAST, EASY RACING FUN!**

There's a right tool for every job — and when the job is diving straight into offshore action, the only tool you need is the Hammer RTR. No assembly or finishing is needed, and on-board electronics come already installed. It's an easy way to break into R/C boating...and a rush for experienced skippers, too!

- Radio and drive equipment come already installed — from the rudder servo and reverse-equipped electronic speed control to the water-cooled, 550-size electric motor.
- The waterproof radio compartment features a screw-down cover that allows easy access to the on-board radio gear.
- Realistic deep vee racer looks — complete with twin cockpits — add to the excitement.
- Done carving into the current for the day? Admire the Hammer at home on its supplied display stand!

INCLUDES A 2-CHANNEL PISTOL GRIP RADIO MADE BY

**Futaba®**

- Servo Reversing
- Fine Trim Controls
- Adjustable Steering Rate
- Battery Status LED
- Charging Jack for Optional NiCds

The durable nylon prop and rudder provide strong thrust and smooth handling. Chine rails on the low-drag hull improve water flow. Trim tabs adjust to fine-tune handling

The Hammer's factory-installed, 550-size electric motor is equipped with a water-cooled jacket that helps avoid overheating even at maximum speeds.

Pick your favorite from six different hull colors! All include decals for an easy, eye-catching trim.

## Replacement Parts

- HCAB6700 Waterproof Switch Boot
- HCAB8705 Rudder Set w/Control Arm
- HCAB9041 Trim Tabs w/Screws
- HCAB7765 Propeller Set (2)
- HCAB7851 Drive Shaft w/Coupler
- HCAB7852 Drive Dog w/Prop Nut
- HCAB7003 Hatch (White Only)
- HCAB8601 Radio Box
- HCAZ3033 Manual

## Recommended Accessories

### DuraTrax® Piranha™ 6- and 7-Cell NiCd Battery Packs

Piranha NiCd batteries are so affordable, you can keep several on hand and charged for nonstop racing. The 1900mAh styles weigh almost the same as the 1500mAh packs, but offer 25% more run-time capacity!

- DTXC2100 Piranha 1500mAh SCX 6-Cell Flat Standard
- DTXC2110 Piranha 1500mAh SCX 7-Cell Flat Standard
- DTXC2020 Piranha 1900mAh 6-Cell Flat Standard
- DTXC2021 Piranha 1900mAh 7-Cell Flat Standard

### DuraTrax® Piranha™ Chargers

*Piranha DC Peak Charger*

**CX-10** for 6-7 cell NiCds is a fast, timed AC/DC charger. **CX-15** adds a meter for monitoring and discharge circuitry for cycling. Peak 6-7 cell NiCd and NiMH packs economically with the **DC Peak Charger**. Enjoy AC/DC flexibility with the **Piranha Peak Power Charger** for 6-7 cell NiCds. **Digital Peak Charger** offers easy programming and peak charging for 1-8 cell NiCd and NiMH batteries.

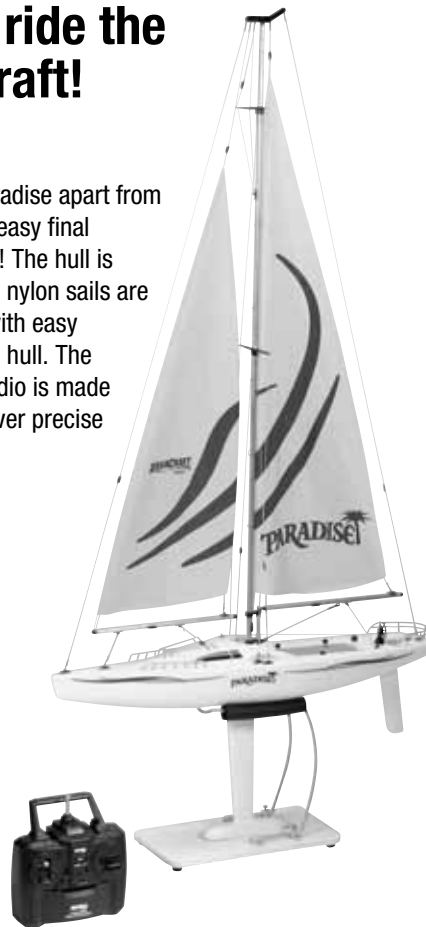

- DTXP4000 Piranha AC/DC Peak Power Charger
- DTXP4002 Piranha DC Peak Charger
- DTXP4005 Piranha AC/DC Digital Peak Charger
- DTXP4011 Piranha CX-10 AC/DC Fast Charger
- DTXP4020 Piranha CX-15 AC/DC Fast Charger with Meter

# More easy ways to ride the waves from AquaCraft!

## Paradise™ RTR (HCAB01 \*\*)

A high-quality fiberglass hull sets the Paradise apart from other entry-level boats — and its quick, easy final assembly will have you sailing in no time! The hull is trimmed in one of six dazzling colors, the nylon sails are preprinted, and the rigging is in place...with easy connection via numbered locations in the hull. The included 2-channel, 2-stick AquaCraft radio is made by Futaba®, and pre-installed servos deliver precise sail and rudder control.

- Length: 26 in (660mm)
- Height (w/keel): 50.5 in (1285mm)
- Beam: 5.25 in (135mm)
- Weight: 3 lb (1360g)
- Requires: 12 "AA" batteries

**Fiberglass hull!**

## Nitro Hammer™ RTR (HCAB26\*\*)

More interested in action than assembly? The Nitro Hammer hits the nail on the head for convenience and ease! Virtually everything is included and factory-installed. That goes for the provided, Futaba®-made radio system as well as the recoil-started AquaCraft marine .15 engine and tuned pipe. Plus, the fuelproof fiberglass hull and deck are prejoined, finished in one of six trim schemes and gel-coated for protection.

- Length: 24 in (610mm)
- Beam: 8.75 in (220mm)
- Requires: 20% glow fuel, 12 "AA" batteries and support equipment

**Fiberglass hull and deck!**

## Reef Racer™ RTR (HCAB12\*\*)

The Reef Racer comes already assembled and ready to go, with radio, motor...even an ESC. A preinstalled direct-drive system makes efficient use of the boat's powerful motor, and even at top speeds, the Reef Racer turns on a dime. The Reef Racer is available in six different colors and frequencies. A self-righting hull design enables it to "auto-recover" from rolls and flips for nonstop action!

**Self-righting hull!**

- Length: 15 in (380mm)
- Beam: 6 in (152mm)
- Requires: 8 "AA" batteries
