Radio-Controlled Ready-to-Run Electric Bass Boat

## BASS BOAT

***Where reel-life looks and ready-to-run relaxation meet!***

**W**ith the Pro Fisherman, you can leave work behind and head straight into a relaxing day of R/C on the water. There's nothing to build or finish, and only decals to apply. Its sparkle metallic finish looks great on the water — or on the display stand that looks like a custom tow-behind trailer. It's a catch for beginning boaters and bass-fishin' fanatics alike!

- *Already assembled and completely equipped. Includes radio, EP outboard, motor, reversible ESC and a boat trailer display stand!*
- *Captures the true bass-boat look, from the trolling motor in the nose to tournament seats on the deck to the sparkle metallic finish on the hull and display stand.*
- *Decal sheets provide additional detail with ease, including compartment and hatch outlines, cockpit instrument panel, depth finder and more.*
- *Height and tilt on the transom mount are factory-set for ease, but adjustable to personal preference.*
- *An L-clip plus hook & loop strip on the hatches hold tight in motion, but release quickly for easy access to batteries and on-board gear.*
- *Push-pull steering linkage offers quick, positive response and easy control.*

For more information on Hobbico's Pro Fisherman Bass Boat or the location of the hobby dealer nearest you, please visit [www.aquacraftmodels.com](http://www.aquacraftmodels.com) or call 1-800-682-8948 and mention code number 99A29.

From the shaft down, the EP outboard is all cast-aluminum and stainless steel. Other features include a water-cooled 550 motor, ball-bearing drivetrain and an adjustable transom mount. EP outboard also sold separately (HCAB7861.)

Made by Futaba<sup>®</sup> and packed with features, including: adjustable steering rate, a battery status LED, fine trims and a charging jack for optional NiCds.

Designed to dazzle, the Pro Fisherman's sparkle metallic finish is available in six sun-catching colors — one for each radio frequency. Hulls and trailers are finished in the same color to provide customized looks without the custom cost!

## Recommended Accessories

### DuraTrax® Piranha™ NiCd Battery Packs

Piranha NiCd batteries are so affordable, you can keep several on hand and charged for nonstop action. The 1900mAh styles weigh almost the same as the 1500mAh packs, offer 25% more run-time capacity!

- DTXC2100 Piranha 1500mAh SCX 6-Cell Flat Standard
- DTXC2110 Piranha 1500mAh SCX 7-Cell Flat Standard
- DTXC2020 Piranha 1900mAh 6-Cell Flat Standard
- DTXC2021 Piranha 1900mAh 7-Cell Flat Standard

### DuraTrax® Piranha™ Chargers

**CX-10** for 6-7 cell NiCds is a fast, AC/DC charger. **CX-15** adds a meter for monitoring and discharge circuitry for cycling. Peak 6-7 cell NiCd and NiMH packs economically with the **DC Peak Charger**. Enjoy AC/DC flexibility with the **Piranha Peak Power Charger** for 6-7 cell NiCds. **Digital Peak Charger** offers easy programming and peak charging for 1-8 cell NiCd and NiMH batteries.

- DTXP4000 Piranha AC/DC Peak Power Charger
- DTXP4002 Piranha DC Peak Charger
- DTXP4005 Piranha AC/DC Digital Peak Charger
- DTXP4011 Piranha CX-10 AC/DC Fast Charger
- DTXP4020 Piranha CX-15 AC/DC Fast Charger with Meter

## More easy ways to ride the waves from AquaCraft!

### READY-TO-RUN SAILBOAT

A high-quality fiberglass hull sets the Paradise apart from other level boats — and its quick, easy final assembly will have you in no time! The hull is trimmed in one of six dazzling colors, nylon sails are preprinted, and the rigging is in place...with connection via numbered locations in the hull. The included channel, 2-stick AquaCraft radio is made by Futaba®, and installed servos deliver precise sail and rudder control.

entry-sailing the easy 2-pre-

### READY-TO-RUN NITRO VEE

More interested in action than assembly? The Nitro Hammer hits the nail on the head for convenience and ease! Virtually everything is included and factory-installed. That goes for the provided, Futaba®-made radio system as well as the recoil-started AquaCraft marine .15 engine and tuned pipe. Plus, the fuelproof fiberglass hull and deck are prejoined, finished in one of six trim schemes.
