

# STRIKE HARD, STRIKE FAST

WITH TUNED PIPE POWER!

## NITRO HAMMER™

**Radio-Controlled Ready-to-Run Nitro Deep Vee**

**F**inishing, building, assembling gear and adding hop-ups — they all take time. But getting the Nitro Hammer RTR in the water takes almost no time at all!

Virtually everything required is included — and virtually everything that's included is either installed or assembled. Plus, the Nitro Hammer also includes a boat stand and a video that shows how to break-in and maintain the included engine.

It's welcome convenience for the experienced sport modeler — and an incredibly easy way for first-time boaters to break into nitro action!

*The Nitro Hammer's recoil-started Marine .15 comes factory-equipped with a tuned pipe. Other features include: true ABC construction, dual bearings and a two-needle rotary carb. A glow plug, manifold and engine break-in video are also provided!*

**READY-TO-RUN!**  
Includes radio & engine with tuned pipe!

*The receiver and servos for the AquaCraft 2-channel pistol are already installed — and the radio is made by Futaba®, the #1 name in R/C radios. Trims, adjustable steering rate, servo reversing, a battery monitor and a light, well-balanced transmitter make it useful and easy to use.*

*The AquaCraft .15 Marine engine includes a tuned pipe for even more high powered racing performance.*

*The fuelproof fiberglass hull and deck are prejoined and factory-finished. Each color corresponds to a different radio frequency — and all are protected by a tough gel coating.*

**Fiberglass  
hull & deck!**

HCAB8701	Rudder Assembly
HCAB9040	Trim Tabs

### Hobbico® Hot-Shot™ 2 Glo-Starters

Palm-sized and powerful, the Hot-Shot 2 offers easy use and genuine Sanyo® NiCd power. Apply it to a plug, and the Twist-and-Lock socket "grabs" with a grip that won't give up until you twist it loose. Its 1500mAh NiCd holds power enough for many starts; a vinyl tip cap, solid protection against dust, dirt and debris. Includes 110V AC wall charger and 1-year warranty. **HCAP2520**

### Kwik-Pit™ Fuel Bottle

With a Kwik-Pit, you can dispense a drop or fill an 8-oz. tank with ease and a squeeze. Translucent material and 10cc markings make accurate readings easy. The blue-anodized, 5" neck offers a long reach and good looks; an angled tip helps to make fast work of fills in hard-to-reach places. Included tip cap prevents in-pit spills and in-car accidents. **DTXP0125**

### Red Alert™ 20% Nitro Fuel

Make your boat's engine run faster, better and longer with the unique formula of Red Alert fuel. Red Alert's race-tested blend of castor and synthetic oils provides optimum thermal stability, continuing to lube and cool your engine even as it increases top-end performance. Quart bottle. **DTXP0530**

## Engine Accessories

Made from chrome-plated cast metal, the **4-Way Wrench** includes threaded storage for 4 glow plugs, sockets for 5/16-1/2" SAE (and 8-13mm metric) nuts and a retaining clip on the plug socket to prevent loss. 2.5" (max.) length. A time-saver for modelers, a life-saver for engines, **After Run Engine Oil** prevents rust, corrosion and gum and varnish build-up. Hand-assembled DuraTrax **Silver Sport** glow plug features a solid-metal coil that resists meltdown. It's an economical hot plug ideal for low-nitro applications.

# AIR FORCE™ RTR

**Hull Length:** 30.5 in (775mm)  
**Overall Length:** 36 in (915mm)  
**Beam:** 13.5 in (345mm)  
**Includes:** AquaCraft Pro 46 engine, 2-channel AquaCraft radio w/2 standard servos, propeller, boat stand & engine video  
**Requires:** glow starter, engine starter, fuel & 12 "AA" batteries

AquaCraft's  
original fiberglass  
RTR!

## Ready to rule the waves *right now!*

The Air Force RTR rules the waves, but simplicity and ease are what rule in the Air Force! Virtually everything is included — and virtually everything included is ready to go *right now!* That includes:

- A hand laid-up fiberglass hull & deck. Both are finished in one of six sizzling color schemes and protected by a high-quality gel coating;
- Installed receiver and servos. Both are included with the AquaCraft 2-channel radio — the same system included with the Nitro Hammer;
- Installed AquaCraft Pro .46 ABC BB engine. Includes glow plug, tuned muffler and dual-needle carb with a remote-mounted high-speed needle; — Installed hardware. Made from rust- and corrosion-resistant stainless steel
- Included: FREE engine video and a combination display stand/carrier!

It's an easy, affordable "first float" for new modelers — and a convenient change of pace for pilots and drivers!  
**HCAB27\*\***

HCAB5027. Air Force ARR. The ARR version of the Air Force features a gleaming white fiberglass hull. It requires all items required for the RTR, plus a 2-channel radio system and .40-size engine.
