BRISTOL BAY

ELECTRIC R/C READY-TO-RUN FISHING BOAT

READY TO ADMIRE...ON DISPLAY AND ON THE WATER.

From the cloth sails to the wood deck, the Bristol Bay captures the look and feel of an authentic working fishing vessel. But for all the scale details that this boat has, there's very little to do when you take it out of the box. And if you think this model looks great on display, wait till you (and your friends) see it in action at your local boat pond!

■ **Ready to Run!**

No building required — just install the mast and connect the pre-numbered rigging lines.

■ **Highly Realistic!**

Features authentic scale details that are pre-assembled and pre-painted — plus working lights.

■ **Well Equipped!**

With a 2-channel radio, 550-size motor and electronic speed control with forward and reverse already installed.

■ **Impressive Quality!**

As illustrated by the strong, lightweight, prepainted fiberglass hull with wood deck.

Includes an AquaCraft 2-channel pistol grip radio made by

Futaba®

- Servo reversing
- Adjustable steering rate
- Fine trims for throttle and steering
- Includes standard-sized servo
- Battery status LED
- Charge jack for optional NiCds

HCAB60** • Hull Length: 33.5 in (851mm) • Beam: 8.75 in (222mm) • Total Height: 29 in (737mm) • Includes: 2-channel AquaCraft™ pistol radio w/1 standard servo, electronic speed control, 550-size motor, boat stand • Requires: 6-cell, 7.2V battery, charger, 8 "AA" batteries for the transmitter, 2 "AA" batteries for the boat lights

BRISTOL BAY

ELECTRIC R/C READY-TO-RUN FISHING BOAT

RECOMMENDED BATTERY & CHARGER

Shark™ 7.2V 1500mAh Sport Pack

A great value in a 6-cell pack! Delivers 1500mAh of run-time capacity at an affordable price, and includes standard connector. DTXC2030

Piranha™ AC/DC Digital Peak Charger

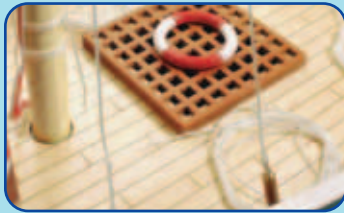

Offers programming ease and peak charging perfection for 1-8 cell, NiCd and NiMH cells. Settings for 6 features can be customized, and up to 10 charge routines can be stored for future recall. Comes with a 1-year warranty. DTXP4005

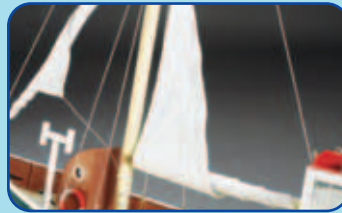

FULLY ASSEMBLED — DOWN TO THE FINEST DETAILS...

Fully rigged — just install the masts and connect the sail line couplers.

The wood deck simulates the wood planking found on full-size fishing vessels.

The static sails are made of cloth.

Horns, life preservers and railing are among the many scale touches.

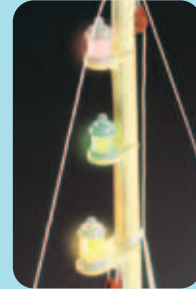

A small lifeboat is mounted behind the cabin.

Anchors are pre-mounted off the bow.

Coiled rope on the sail winch drums add to the model's authenticity.

The operational lights are controlled by their own on/off switch.

...AND ALSO EQUIPPED FOR EXCITING RADIO-CONTROL ENJOYMENT.

The electronics for radio-control operation are already installed. (Batteries shown not included)

The steering rudder servo and linkages are pre-installed, along with the running lights battery box. (Batteries shown not included)

A powerful 550 motor turns the efficient direct drive system.

The large rudder makes for easy maneuvering on the water.
