

MICRO STREET FORCE™

RTR

1/18 READY-TO-RUN ELECTRIC 4WD RACE CAR

Small in size. . . BIG on performance and value!

At less than 10" long, the Micro Street Force is sized for exciting electric racing action almost anywhere. But don't let its smaller dimensions fool you: it's loaded with performance features that put it way out in front of other entry-level on-rodgers. Plus, it's completely assembled, with radio, servo, ESC, NiCd battery and charger included — so if you're ready to race right now, the Micro Street Force is ready when you are!

Nothing left to buy!

No building or painting!

Sleek street racer looks!

Thrilling performance!

MICRO STREET FORCE™

RTR

1/18 READY-TO-RUN ELECTRIC 4WD RACE CAR

INCLUDES A 2-CHANNEL PISTOL GRIP RADIO MADE BY

Futaba.

Made by the world's most respected manufacturer of R/C radio systems, the Micro Street Force's radio is lightweight, comfortable to hold, adaptable to individual driving styles, and a great way to begin — and keep growing — in R/C.

- LED battery status indicator
- Fine trims for throttle and steering
- Adjustable steering rate
- Charging jack for (optional) NiCd batteries
- Includes (1) SX100 servo and 8 "AA" batteries
- All on-board radio gear is pre-installed

SIX DIFFERENT BODY COLORS TO CHOOSE FROM

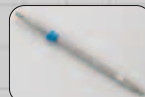

The Micro Street Force's sleek body with stylish wing looks fast even when it's sitting still! Made of tough, lightweight polycarbonate, each color is keyed to a different radio frequency. All are factory-trimmed and painted — you just add decals — and the wheelbase, track width and body mounts are all adjustable, so you can also use cool scale bodies from other manufacturers!

AVAILABLE OPTION PARTS

From aluminum to graphite, from titanium to foam, a number of quality hop-ups are available to maximize the Micro Street Force's performance. See inside for the complete list.

DTXC6867 Foam Bumper

DTXC6178 Titanium Rear Axle

DTXC7035 Graphite Upper Plate

DTXC7425 Front One-Way Differential

DTXC8357 Aluminum Pinion Gear

DTXC8276 Gold Anodized Heatsink Motor Plate

Check out these quality components!

ESC1000 MICRO ELECTRONIC SPEED CONTROL W/REVERSE

This quality-engineered ESC delivers much smoother acceleration and control than the jumpy response of the inefficient mechanical controls usually found on RTRs. You'll enjoy fully proportional command of forward, reverse and braking.

600mAh NiCd BATTERY & CHARGER

Two more accessories that you don't have to buy separately — another Micro Street Force bonus! The 600mAh NiCd battery cranks out plenty of power, with run times of up to 1/2 hour on a single charge from the included AC wall charger.

For more information, and the location of the dealer nearest you, visit our website at www.duratrax.com, or call 1-800-682-8948 and mention code number 99U26.

MICRO STREET FORCE™

RTR

1/18 READY-TO-RUN ELECTRIC 4WD RACE CAR

ADJUSTABLE WHEELBASE, TRACK WIDTH AND BODY MOUNTS

- Allows for use with popular scale bodies from other manufacturers

ESC1000 MICRO ELECTRONIC SPEED CONTROL W/REVERSE

- Smoother, more reliable response than a mechanical speed control

SOLID REAR AXLE

- Made of steel for added durability

6-CELL 600mAh NiCd BATTERY WITH CHARGER

INDEPENDENT FRONT SUSPENSION

DURABLE GEAR DIFF

- Designed to stand up to the rigors of racing

EFFICIENT BELT-DRIVEN 4WD SYSTEM

FIBERGLASS CHASSIS

- Increases chassis rigidity while decreasing overall weight

COMPLETE BALL BEARINGS

- Friction-fighting bearings (instead of bushings) increase top-end speeds

QUICK-CHANGE BATTERY HOLDER

SOFT, HIGH-GRIP RACING TIRES

HORIZONTALLY MOUNTED FRONT SHOCKS

FOAM FRONT BUMPER

Complement your Micro Street Force with quality DuraTrax accessories!

www.duratrax.com

NiCd CONVERSION KIT

Why buy disposable alkaline cells, when you can install Sanyo® NiCds and use them hundreds of times? Recharging is simple: plug the charger into the wall, the plug into your radio — and you're done. Takes only 2-3 hours. **DTXP4010**

MICRO CAR CARRIER

Carry your Micro Street Force car — and gear — to the track with custom-fit convenience! Handsome tote features long-lasting 600D nylon construction with protective internal foam padding; secure, double-pull zippers; sturdy carrying handles and detachable shoulder straps; plus ample storage area for parts and accessories. **DTXP2027**

Car and radio shown not included.
