

VENDETTA ST

1/18 Scale Ready-to-Run EP 4WD Stadium Truck

FULLY OPTIONED AND READY TO RUN!

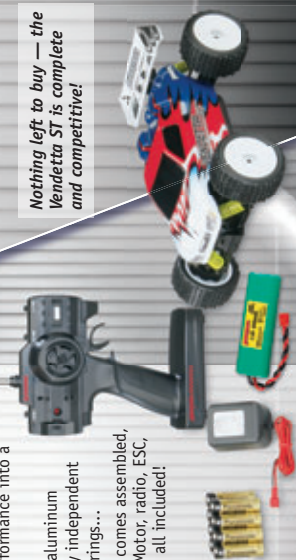

The ultimate 1/18 scale stadium truck — with 1/8 scale features!

Take stadium truck action anywhere with the DuraTrax Vendetta ST — a mini that packs 1/8 scale features and performance into a 1/18 scale size!

No other mini truck includes all this: Anodized aluminum upgrades, Track-tunable oil-filled shocks. A fully independent suspension. Adjustable wheelbase. Full ball bearings...

And ready-to-run ease. The Vendetta ST chassis comes assembled, with a painted body and nothing more to buy. Motor, radio, ESC, NiMH battery, charger, "AA" batteries — they're all included!

Nothing left to buy — the Vendetta ST is complete and competitive!

THE VENDETTA ST INCLUDES EVERYTHING YOU SEE HERE!!

A 2-Channel Pistol-Grip Radio
By **Futaba**.

Made by the #1 name in R/C systems, the Vendetta ST's radio adapts easily to different driving styles. It's a great way to start — and continue — growing as an R/C driver.

Features:

- Adjustable steering rate
- Steering and throttle trims
- LED battery status indicator
- Charge jack for (optional) NiCd batteries
- RX-100 receiver and SX100 servo (installed)
- 8 "AA" batteries (included)

Adjustable Oil-filled Shocks with Multiple Mounting Positions

Oil-filled shocks are standard racing equipment — and that's how the Vendetta ST is equipped. Racing springs, ride height spacers, and multiple mounting positions provide tuning options for any track.

Six Color Choices

Made of light, impact-resistant polycarbonate, the Vendetta ST's body is available in six eye-catching trim schemes — one for each available radio frequency. Apply the included decals and it's ready to mount. No trimming required!

ESC7500 Electronic Speed Control with Forward and Reverse

Compact, light and reliable, the 75 amp ESC7500 offers smooth, precise control of forward, reverse, and brake. High-frequency switching guarantees cooler operation and virtually instantaneous response. Installed and ready for immediate use.

VR3 Motor

Included and installed, the VR3 is an ultra high-rpm motor that supplies strong straightaway speed for racing.

6-Cell, 650mAh NiMH Battery and Charger

A NiMH battery and charger supplied at no additional cost. Changing a pack takes a few seconds — and recharging is as easy and

inexpensive as plugging the wall charger into the nearest 110V AC outlet.

VENDETTA ST

1/18 Scale Ready-to-Run EP 4WD Stadium Truck

ESC7500 Electronic Speed Control
A stand-alone 7.5 amp ESC with brake and reverse.

Two-Position Wing
Fine-tunes downforce to track surfaces.

Adjustable Oil-Filled Shocks
Include racing springs and ride height adjusters.

Composite Gear Cover
Protects gears from dust and debris.

Wheel Decals
Also includes wheel disc and wing decals!

SX-100 Steering Servo
Fast, strong — and standard-sized!

Ultra High-RPM VR3 Motor
Straightaway speed for racing!

Composite Tub Chassis
Rigid and durable.

Aluminum Driveshaft
Lighter, stronger and off-road rugged.

Shaft-driven 4WD
Simple, proven and effective.

Aluminum!
The 1/8 scale edge for 1/18 scale racing!
The Vendetta ST is all-in-one complete — and the first mini truck to make aluminum upgrades a standard part of a ready-to-run racing package. Lighter than steel, stronger than plastic, they're designed to meet off-road racing demands head-on...and come out on top.

- Aluminum Front Brace**
For a stiffer, stronger front end.
- Aluminum Shock Towers**
With multiple mounting holes for track tuning.
- Aluminum Steering Drag Link**
For precise steering response.
- Durable, Fully Adjustable Ball-Type Suspension**
Fine-tune camber, caster and wheelbase.

Complete Bearing Set
For smoother driving, higher speeds and less wear.

Mounted Square Block Tires
Glued to white racing rims. Foam inserts included.

Gear Differentials Front and Rear
For durable drive power.

DTXD14**
Length: 10.25 in (260 mm)
