

FIRE HAMMER™

1/5 Scale Ready-To-Run 2WD Gas Buggy

**It's Mighty...
And Mighty Easy!**

**HUGE
1:5 Scale**

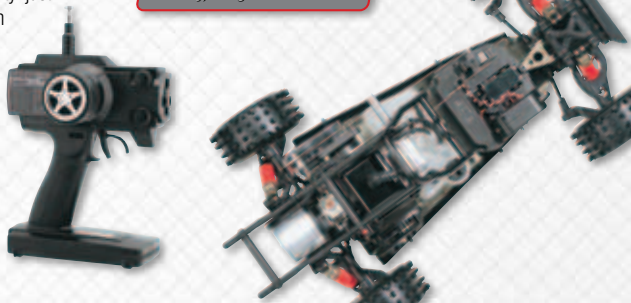

If size matters to you, then get ready to be blown away by the FireHammer! It's a whopping 1/5 scale — which means it can take on just about ANY terrain or obstacle in its path. And perhaps the best thing about the FireHammer is its simplicity: just add regular unleaded gasoline mixed with 2-cycle oil, and you're good to go!

Gas-N-Go...

Includes FM radio system, engine, battery, Charger & FailSafe unit!

- **Completely assembled!**
- **Powerful engine and high-performance FM radio are already installed!**
- **Loaded with heavy-duty parts!**

DURATRAX
THE LEADER IN AWESOME R/C™

The FireHammer comes equipped with the best — and it's all installed!

A 2-stroke DTX 23cc gas engine: the pinnacle of power and ease!

- Uses regular gasoline and 2-cycle oil.
- Starts easily with the built-in recoil starter.
- Much simpler to operate than "glow" engines — no special "breaking in" required methods.
- Requires no special equipment such as glow plugs, igniter or starter box.
- Features a push-button kill switch for added safety.
- Delivers run times of over 1/2 hour on a single tank of gas.

A Futaba 2PEKA FM radio — with all the components!

- Besides FM signal clarity, the comfortable 2PEKA transmitter features End Point Adjustment (EPA), dual rates and more.
- Comes with two Futaba servos, including a heavy-duty S3302 1/4 scale steering servo with durable metal gears.
- Also included: a 5-cell 1800mAh NiCd receiver battery and AC wall charger.

RADIO MADE BY
Futaba.

The FailSafe unit adds an extra measure of security!

In the event of low battery power, a lost radio signal or frequency interference, the FailSafe unit immediately returns the engine to idle.

- Six different colors to choose from!
- Each keyed to a different radio frequency!
- Just apply the decals!
