

# SOPWITH PUP

Almost-Ready-to-Fly EP Foam Sport-Scale Warbird

**An easy-flying replica of a favorite WWI fighter.**

Flying inside a gymnasium (or even outdoors on a calm day) is fun and carefree with this foam flyer! ElectriFly's Sopwith Pup is made of durable, lightweight foam, so you can perform evasive maneuvers with confidence. And unlike most indoor fliers, it boasts the scale-like look of a WWI classic.

- **A great first indoor model!**
- **Flight-ready in just 2-4 hours.**
- **Vintage looks and stable flight in a lightweight foam ARF.**

# SOPWITH PUP

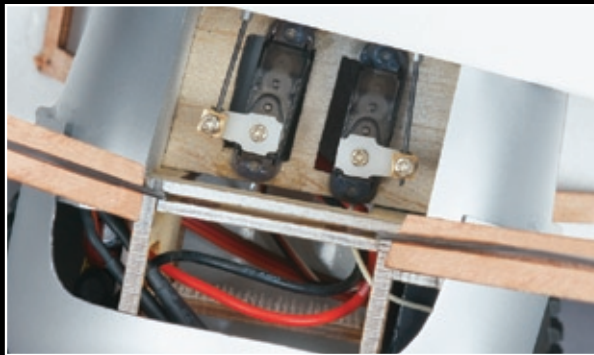

Almost-Ready-to-Fly EP Foam Sport-Scale Warbird

This warbird can be ready for indoor combat missions after just a few hours of easy final assembly.

ElectriFly's smallest out-runner brushless motor — the RimFire™ 250 — provides plenty of pep for powering this Pup through its paces.

Equipping the Sopwith Pup with incredibly small ES40 Pico servos lessens flying weight to the bare minimum. The open battery compartment allows for easy access.

Laser-cut plywood canopies add realism, and are notched for easy CG at your fingertips.

## Excellent accessories for enhancing the indoor flying experience.
