

"Shoestring"

Almost Ready-to-Fly .46-.81/EP Sport Plane

Mid-size ease, big-time performance

Easy to build — and easy on budgets — this mid-size Great Planes Shoestring ARF offers the perfect alternative to all those Extras, Cessnas and Cubs. The full-size racer's simplicity made it a favorite with builders...its maneuverability and speed appealed to trophy-hunting pilots. Those same qualities make this ARF a standout. "Firewall" the throttle...and picture yourself maneuvering past the pylons to a Cleveland Air Race victory!
