

HANDY SANDER™

The perfect hand-sanding tool!

Length: 8.9 in (200mm)
Width: 4.9 in (124mm)
Thickness: 0.625 in (8mm)

Patent Pending

***Great for hobby
and household use!***

Easy to use — with less fatigue — the Great Planes Handy Sander makes quick work out of modeling and household sanding projects. Made of a flexible foam material, the sander conforms to your hand for a "custom" feel...and delivers better results than conventional sandpaper or sanding blocks even on surfaces with compound curves.

- *Large sanding surface area creates a smooth finish for easy covering application — on fuselages, over sheeted wings, and in tight corners.*
- *An elastic strap holds the Handy Sander comfortably and securely on your hand, stretching to fit any size.*
- *Combo Pack includes one Handy Sander and one sheet each of three sandpaper grits (80, 120 and 220).*
- *Sandpaper is pre-cut to the proper size. Replacement sandpaper packages are available separately.*

GPMR6250 Handy Sander Combo Pack
GPMR6251 Handy Sander Replacement Pack Assortment (3)
GPMR6252 Handy Sander Replacement Pack 80 grit (3)
GPMR6253 Handy Sander Replacement Pack 120 grit (3)
GPMR6254 Handy Sander Replacement Pack 220 grit (3)

The Handy Sander allows you to sand wing panels and other curved surfaces evenly and with minimal fatigue.

Sandpaper sheets are sized to fit the Handy Sander — and attach quickly and easily with hook-and-loop fastener.

Attention retailers! Handy Sander Combo Packs are available in 12-count boxes that convert easily into attractive countertop merchandisers.

PT-60

the perfect trainer

- The PT-60's large size offers greater visibility in the air, and will really turn heads at the flying field.
- With the PT-60's unique "Interlocking I-Beam" wing construction, the ribs plug securely into the center web, followed by grooved top and bottom spars—holding alignment for easy assembly and increasing wing strength.
- "D-Tube" wing structure and sheeted tips easily and permanently maintain the built-in washout during and after assembly.
- Adjustable servo tray positioning lets you balance the plane's weight more easily, and allows a wider range of engines to be used.

GPMA0119
Wingspan: 71 in
Wing Area: 888 sq in
Length: 53.3 in
Weight: 7-8 lb
Requires: 2-stroke .45-.60 or 4-stroke .48-.70 engine, 3-4 channel radio w/3-4 servos & 3+ rolls MonoKote®

Great Planes® Pro™ Adhesives

The same consistent high quality you find in Great Planes kits is also available in adhesives. More than their pure, powerful formula separates Pro CAs from other glues. Pro adhesives are labeled with a "Best If Used By..." date—so there's never a doubt about their freshness!

Pro CAs

- Clog-resistant, extra-long applicator tips reach easily into tight spots.
- Available in 1/2, 1, 2 and 4 ounce sizes of thin, instant-setting CA and thicker, gap-filling CA+; 1/2, 1 and 2 ounce sizes of extra-thick CA-; and 1 ounce CA Gel.

GPMP6001 CA (1/2 oz)
 GPMP6002 CA (1 oz)
 GPMP6003 CA (2 oz)
 GPMP6004 CA (4 oz)
 GPMP6007 CA+ (1/2 oz)
 GPMP6008 CA+ (1 oz)
 GPMP6009 CA+ (2 oz)
 GPMP6010 CA+ (4 oz)

GPMP6013 CA- (1/2 oz)
 GPMP6014 CA- (1 oz)
 GPMP6015 CA- (2 oz)
 GPMP6020 CA Gel (1 oz)
 GPMP6035 Activator w/ Pump (2 oz)
 GPMP6036 Activator Refill (8 oz)
 GPMP6039 Debonder (1oz)

Pro Epoxies

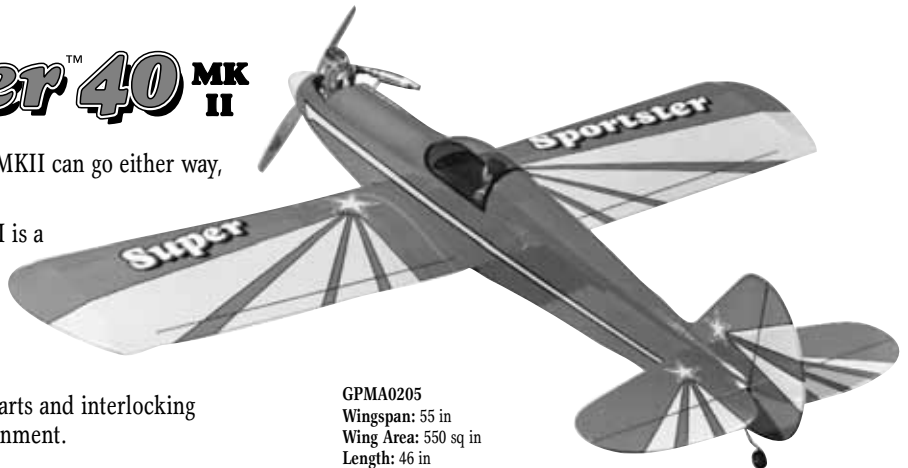

- Pure, powerful 6-Minute Epoxy cures quickly while also providing incredible strength.
- Pro 30-Minute Epoxy features an accurately controlled and consistently reliable 30-minute curing time.

GPMP6042 6-Minute Epoxy - 4 oz
 GPMP6045 6-Minute Epoxy - 9 oz
 GPMP6043 30-Minute Epoxy - 4 oz
 GPMP6047 30-Minute Epoxy - 9 oz

Super Sportster 40 MK II

- Fast or slow, hot or not—the Great Planes Super Sportster MKII can go either way, depending on what you want!
- With the CG aft and a hot engine, the Super Sportster MKII is a great aerobatic performer—with a smaller engine and the CG forward, it provides stable, forgiving flight.
- The thick, symmetrical airfoil offers excellent wind penetration and slow landings.
- Great Planes' top quality, pre-sanded, precision-cut balsa parts and interlocking construction system practically guarantee straight, true alignment.

GPMA0205
