

“High-quality, affordably priced flying model airplanes.”

Cessna[®] 182 SKYLANE[®]

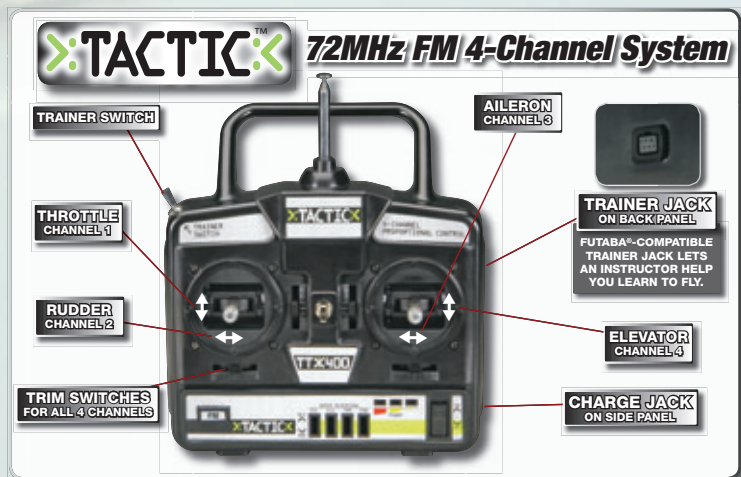

Ready-to-Fly Electric Airplane

Realistic looks and 4-channel control — with ready-to-fly ease!

FlyZone is the expert at making R/C flight easy...and with the Cessna 182 Skylane's "traditional" looks and 4-channel control, you can add realism to the advantages as well. There's no building, covering or painting to do...even the decals are factory-applied for an authentic trim scheme!

- *Final assembly takes only a few minutes, with all electronics preinstalled.*
- *The one-piece wing further reduces assembly time — and is reinforced for added durability.*
- *Includes a 380-size motor with more power than those found in many other RTF planes.*
- *Also features an ABS cowl and wheel pants and heavy-duty aluminum landing gear with foam wheels.*

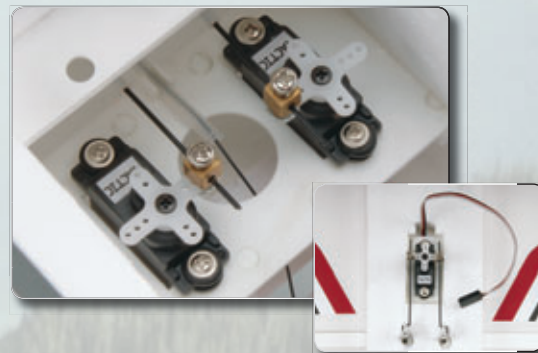

HCAA23** • Wingspan: 34.8 in (880 mm) • Length: 26.5 in (675 mm) • Includes: Tactic 4-channel radio system w/6-channel receiver and 3 micro servos; 380 motor; electronic speed control with auto cut-off; ElectriFly™ NiMH battery; ElectriFly™ 12V DC peak charger; spare propeller • Requires: 8 "AA" batteries

Ailerons allow the Cessna 182 Skylane RTF to fly like a full-size plane. It turns using conventional rudder control, and elevator action controls altitude.

Three lightweight Tactic micro servos provide swift, precise movement in flight.

More choices in easy-to-enjoy R/C

NexSTAR[™] Select

The ultimate R/C flight trainer!

No other trainer offers so much for the first-time pilot: a Futaba® radio, an O.S.® engine, and a special NexSTAR edition of the Great Planes® RealFlight™ R/C Simulator! The 4YBF 4-channel is factory-installed and features AFS™ (Active Flight Stabilization), which automatically detects and corrects any signs of uneven flight. The .46 FXi™ engine starts easily and effortlessly every time, and requires no adjustments. And RealFlight lets you practice flying the NexSTAR anytime, using your Futaba transmitter as the controller, right on your PC. You'll develop confidence in piloting all of the plane's special features before you even take your NexSTAR to the flying field for the first time!

King's Ransom[™] READY-TO-RUN Pirate Ship

Ready to pillage — out of the box!

The King's Ransom brings pirate lore to life with its included motor, ESC, and 2-channel radio system — all installed. The painted fiberglass hull is decked out with some of the richest detail you've ever seen in an RTR vessel...even four pirate figures, hand-painted for realism with a capital "Aaar!" The cloth sails can be bowed to appear wind-filled on display or rolled up for heading out to sea.

AQUB58** • Length: 40.5 in (1029 mm) • Width: 10.5 in (267 mm) • Height: 42 in (1067 mm)
RTR Weight: 10.3 lb (4.67 kg) • Includes: AquaCraft 2-channel radio, 550-size motor, electronic speed control
• Requires: 6-cell battery, charger & 8 "AA" batteries

The heli virtually anyone can fly!

Impress your friends with motionless hovering! The secret: twin counter-rotating blades — and it's so easy that even a beginner can fly the Axe EZ like a pro after just a few minutes. Included training gear and an instructional DVD make it even easier! The Tactic 4-channel radio transmitter is light, comfortable and easy to control. The 800mAh LiPo battery recharges easily with the included AC peak charger. Designed for hours of flying fun, the Axe EZ is available in six different colors — each with its own 72MHz frequency, and each includes decals for six action trim schemes!

HMXE05** • Length: 14.4 in (365 mm) • Height: 6.7 in (170 mm) • Main Rotors: 13.6 in (345 mm) • Weight: 7.5 oz (214 g) • Includes: 4-channel FM radio, 7.4V 800mAh Electrify™ LiPo battery, AC wall charger, spare blade set, spare landing gear, training gear, instructional DVD • Requires: 8 "AA" batteries
