

A MOST VERSATILE AND VALUABLE HOBBY TOOL!

HOBBY HEAT™ PRO II WITH SOLDERING TIP

The included soldering tip is ideal for any soldering job.

Both feature push-button ignition ease — with a child-resistant safety lock.

- *The flame is adjustable to provide precise control.*
- *Fills directly from a butane canister (not included).*
- *Includes soldering tip for quick wiring jobs.*

Hobby Heat torches have returned, and they're better than ever! When you need concentrated flame for soldering, brazing, heat shrinking, de-icing and countless other hobby, craft and home uses, these are the torches you can rely on. Whether you choose the heavy-duty Pro Torch II or the compact Micro Torch II, you'll have a durable, high-quality tool that's easy to operate. And their pistol-grip design makes them comfortable to hold, too. Both are powered by economical, easy-loading butane lighter fluid (not included).

HOBBY HEAT™ MICRO TORCH II

- *The included refillable butane cartridge delivers 20 minutes of flame.*
- *Empty cartridges are available separately (HCAR0751) that you can have filled and ready for nonstop working convenience.*

Just squeeze the trigger for a pinpoint flame, wherever you need it.

**2400° F (1300° C)
HEATING POWER—INSTANTLY!**
