"High-quality, competitively priced R/C helicopters and accessories."

AXE™ CPv3

**Not just Ready-To-Fly...
Ready for 3-D!**

Easy enough for a beginner, tricked out for the expert!

There are lots of electric micro helis to choose from...but only one boasts advantages like Bell-Hiller mixing, a direct drive tail and 5-channel radio! The Axe CPv3 has all of these and much more, and it comes fully assembled with everything you need right out of the box. Beginners will appreciate how smooth and stable the Axe CPv3 is — while expert pilots will enjoy performing exciting 3D aerobatics!

The Axe CPv3 comes loaded with quality components:

AXE™ CPv3

Heli-Max™

Exciting flying action indoors or outdoors!

- Incredibly adjustable (including linkage, mixing arm ratios, fly bar weighting and head dampening).
- Accepts a wide variety of blade hub widths — ideal for carbon fiber or wood blades.

Bell-Hiller Rotor Head

Usually a coveted hop-up, this is standard equipment on the Axe CPv3. It delivers rapid, precise cyclic response for smooth flight and 3D aerobatic performance.

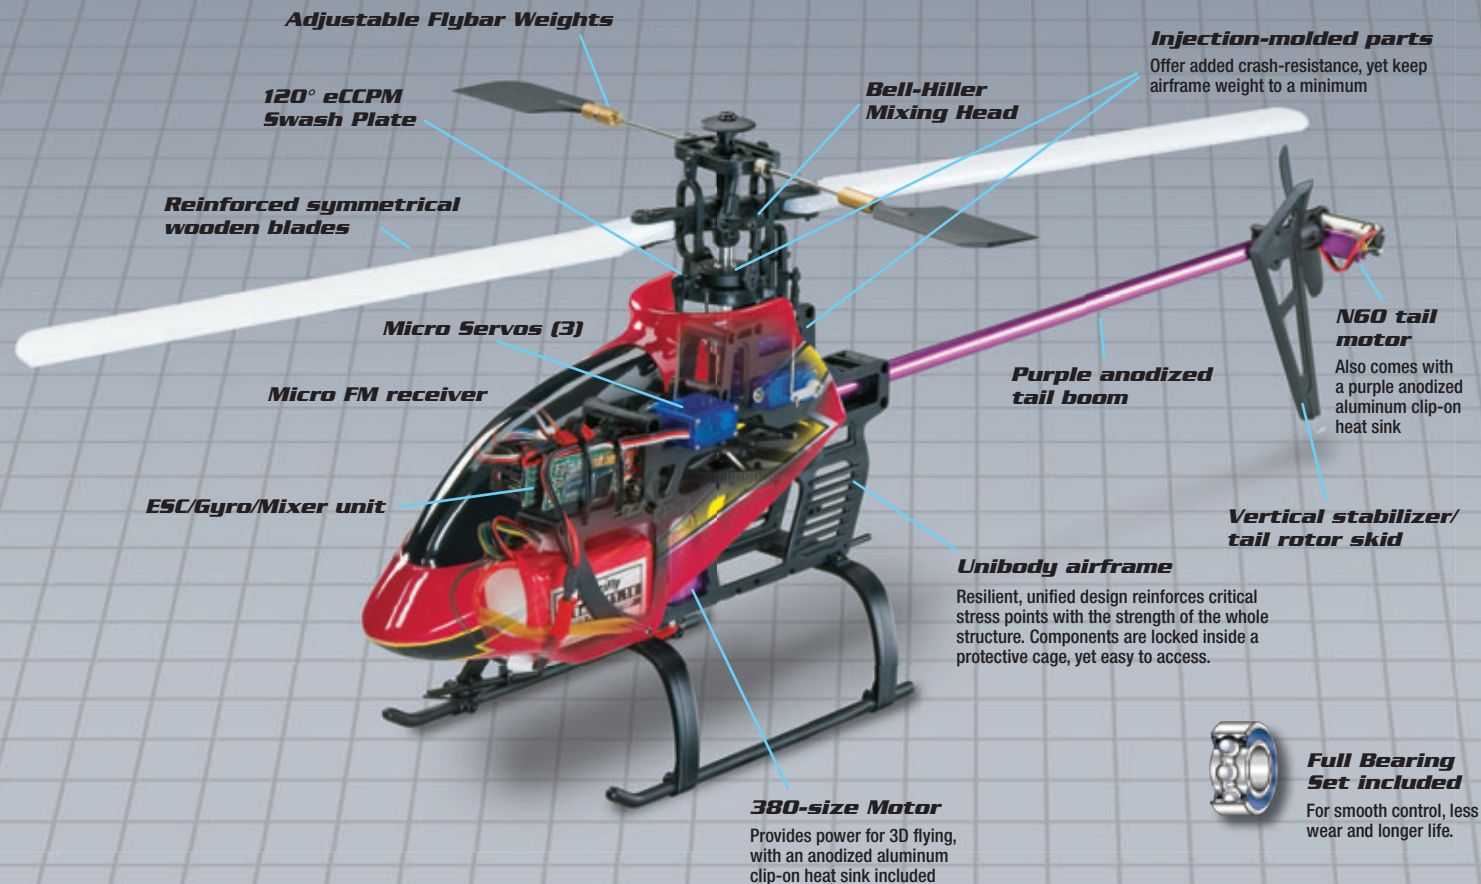

Direct Drive Tail Rotor

Direct Drive means incredible power and response for tail commands, all while eliminating tail rotor gears for greater efficiency and less maintenance.

Multi-Function 5-channel Transmitter

Features Adjustable Pitch Range, Idle-Up mode and Trainer Switch.

Optional High Performance Upgrades
