

N NOVUS™ FP 125

2.4GHz Brushless Sub-Micro Fixed-Pitch Heli

FLY IT NOW!™ **Indoors or out!**

Sub-micro size makes Novus 125 helis easy to enjoy indoors or out. But what really sets them apart from other ready-to-fly helis are value and performance.

They're not just the smallest torque tube-driven electrics ever; they're the best-equipped sub-micros R/C has ever seen. They offer you the precision of a heading-hold gyro, a torque-tube driven tail and digital servos. The interference-free dependability of a 2.4GHz radio system. Maintenance-free brushless power — and more!

Get the best that RTF helis can offer — the Novus 125 Series from Heli-Max.

Specifications:

Rotor Diameter: 10.2 in (260 mm)

Weight: 2.8 oz (80 g)

Height: 3.9 in (100 mm)

Length: 11.2 in (285 mm)

Width: 1.6 in (40 mm)

Requires: 8 "AA" alkaline batteries

Stock Number: HMXE0807

- **Better-equipped than other sub-micros — and the performance equal of much larger helis!**
- **A torque tube-driven tail and heading-hold gyro offer precision and efficiency other sub-micros can't match.**
- **Features a simpler design and fewer parts than collective-pitch helis, for easier maintenance and longer life. Anodizing on the CNC-machined, aluminum rotor head adds good looks to tough construction.**

The Novus 125 FP includes:

- **Fully assembled heli**
- **Brushless motor & ESC**
- **Heading-hold gyro**
- **Programmable 2.4GHz 4-channel computer radio system w/dual rates**
- **Digital servos**
- **3.7V 600mAh LiPo battery**
- **AC wall charger**
