

Heli-Max™

*"High-quality, competitively priced
R/C helicopters and accessories."*

AXE™
CX MICRO
Ready-to-Fly Electric Micro R/C Helicopter

***Everything you want in an R/C heli —
just smaller, simpler, and more affordable!***

Less than a foot long, the Axe CX Micro delivers "real" R/C hobby quality in a low-cost RTF model that's easy to fly AND easy to keep flying — thanks to its sturdy construction and readily available replacement parts. The performance excites even experienced R/C hobbyists...while stabilizing, counter-rotating blades give first-timers total control!

- **Factory-built and flight-tested.**
- **Includes a premium-quality, 4-channel heli radio system.**
- **Durably built — easy to repair for unlimited flying fun.**
- **Bubble-type canopy and free-moving tail rotor add scale-like realism.**

HMXE09**

Rotor Span: 10.6 in (270 mm)

Height: 5.9 in (150 mm)

Length: 10.8 in (275 mm)

Weight w/supplied flight battery: 4.26 oz (121 g)

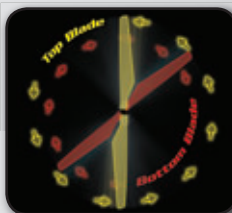

Requires: 8 "AA" batteries for transmitter

Even experienced R/C hobbyists will appreciate the performance delivered by the Axe CX Micro's two dependable servos and long-lasting motors.

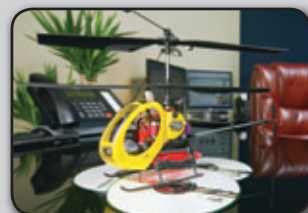

The gyro, receiver, and electronic speed control are all combined into one lightweight unit.

**Counter-rotating blades
for easy flight!**

Dual blades, rotating in opposite directions at the same speed, eliminate the natural tendency helicopters have to spin — allowing smooth, successful control your first time out!

Show off your piloting skills in the family room or office — the Axe CX Micro is sized to fly almost anywhere!

The lightweight Lexan® canopy is available in six vibrant colors.

Ready-to-Fly Electric Micro R/C Helicopter

**Factory-built,
flight-tested R/C machine
brings heli fun indoors.**

Includes:

- Fully assembled Axe CX Micro helicopter
- 4-channel 72MHz FM heli radio with 2 servos
- High-capacity 7.4V 500mAh LiPo battery
- AC LiPo wall charger
- Realistic canopy — available in your choice of six colors.

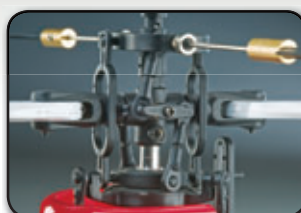

With its easily removable and replaceable components, you can keep the Axe CX Micro in perfect flying form — no special know-how needed.

Heli-Max also has the next step up in size and maneuverability:

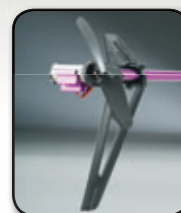

Move outdoors — to fly inverted and more aerobatics!

- Fly-bar weights adjust cyclic sensitivity to match desired performance levels.
- Includes a 5-channel FM radio, 380-size main motor, N60 tail motor, 3-in-1 ESC/gyro/mixer unit, 910mAh balanced LiPo battery w/Deans® Ultra plug®, LiPo-balancing charger w/AC adapter, training gear and instructional DVD.

The Bell-Hiller Rotor Head provides rapid and precise cyclic response for 3D aerobatic performance and smooth flight.

The tail drive unit mounts directly to the tail motor, providing incredible power and response. It also increases efficiency and reduces the maintenance needed with driven tail rotors.

HMXE07**
Main Rotor Diameter: 20.75 in (528 mm)
Length: 23 in (584 mm)
Weight: 16.5 oz (468 g)
Requires: 8 "AA" batteries
