ODOG2108

O'Donnell Performance Cooling Heads

These heads offer a low-drag design and one of the most massive surface areas for cooling ever created!

ODOG0497

O'Donnell Glow Plugs

For top performance under pressure

The exclusive, patented seals on O'Donnell plugs translate to more runs between changes, less fine-tuning, and stronger, more consistent performance right down the line. They're available not just for cars, but for trucks, 2-strokes and 4-strokes and boats, planes and helicopters!

O'Donnell Racing Fuel

The exclusive O'Donnelllube™ lubricant package, a formulation of synthetic oils and additives, produces smooth idle and acceleration while minimizing heat and wear. O'Donnell adds the highest grades of methanol and nitromethane, using AccuBlend™ processing for superior quality and consistency.

ODOG5010

O'Donnell Super Sport .21 Racing Engine

Finally, a .21 engine worthy of the O'Donnell name! Silky-smooth bottom end, crisp mid-range and ballistic top end are all there for the taking. Combine it with O'Donnell 30% race fuel and you have the winning combination!

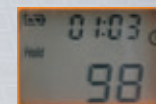

TGX-1™

Infrared Temperature Gauge/Stopwatch

The push-button TGX-1 is a Fahrenheit/Celsius temperature gauge that also records lap times to the nearest 0.01 second — and displays them on a big, yellow-backlit LCD. It's also the only 2-in-1 engine tuning tool that includes the O'Cone sensor shield — an innovation that boosts the accuracy of temperature readings multiple ways. Includes 3V lithium battery, high-impact plastic case, storage pouch and 1-year warranty.

ODOP9000

O'Lube™ KryTech™ Dry Lubricant

Unique O'Lube KryTech (4 oz.) dries to a hard, waxy finish that seals out water and doesn't attract dust, dirt and grit — ideal for reducing friction and gear noise.

ODOC8006

Speed Wash™ Cleaner

Speed Wash (32 oz.) applies with or without water and contains 5 cleaning agents safe for use on titanium, aluminum, fiberglass, clear coat, stainless steel, chrome, rubber, plastic, vinyl and leather. Excellent for dirt, grime and nitro residue.

Designed by O'Donnell — and proven in top competition.

The word is out, and the results are in. The Z01-T is easily the most dependable, durable, consistent platform ever created for 1/8 scale nitro truggy racing.

- **2-stage air filter** — filters out dust, dirt and grime
- **Adjustable front/rear swaybars** — 3 sizes/sets included
- **Aluminum heat sink engine mount**
- **Aluminum rear toe-block**
- **Transponder mount**
- **Front/rear chassis braces**
- **Multi-spoke wheels**
- **Covered wheel nuts**
- **Race-legal fuel tank w/splash guard**
- **Low-profile polycarbonate body**
- **Molded nylon wing**
- **High-performance rubber-sealed bearings**
- **Independent front suspension w/adjustable camber, caster and toe-in**
- **Rapid Reaction independent rear suspension w/adjustable camber, toe-in, ride height and wheelbase**
- **Hard-anodized 7075-T6 machined aluminum hub extensions**
- **Spiral-cut, machined steel pinion and diff gears for high efficiency, less friction, better mesh and more tooth contact**
- **Sintered metal sun/satellite gears**
- **Machined/lightened steel spur gear**
- **Hex-head hardware** — Strong, countersunk and strip-resistant. Full-length threads on hardware and attachment points to "lock" parts in place.
- **Sealed receiver box**
- **3 constant-pitch spring sets** — Soft, medium and firm, color-coded for easy reference
- **Captured hinge pins**
- **Dual-disc brake system** — Features adjustable front/rear bias, an oversized front disc, heat-treated hardware and extra-thick brake pads
- **Dual, high-volume fuel filters**
- **Precision Pivot SystemTM suspension arm mounts**

ODOC0125

Length: 23 in (585 mm) Width: 16.5 in (420 mm) Height: 8 in (205 mm)
Wheelbase: 14.5-14.75 in (370-375 mm) F/R Track: 14/14 in (355/355 mm)

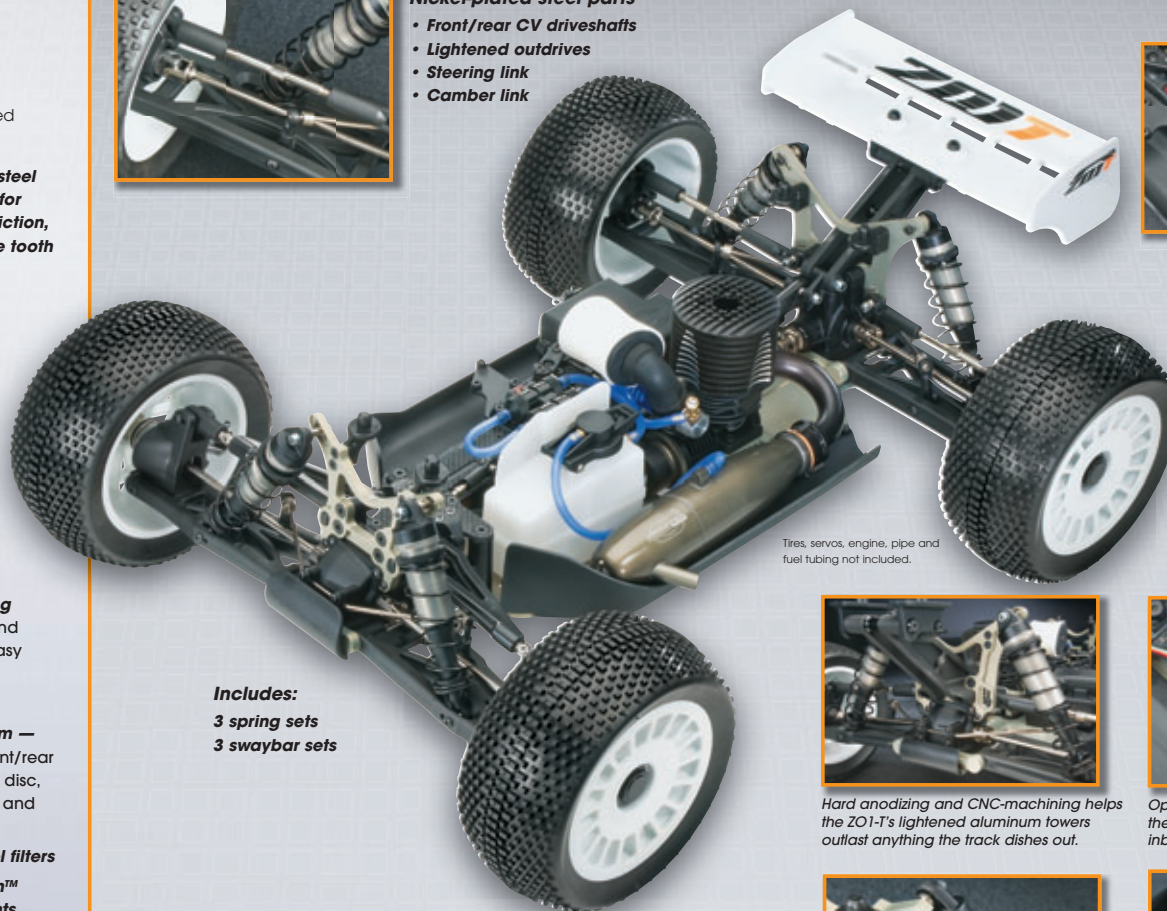

Includes: Complete chassis; polycarbonate body and molded nylon wing; multi-spoked wheels; clutch; air filter; dual fuel filters; shock wrenches; instruction/assembly manual w/set-up tips

Requires: 2-3 channel radio w/2 servos; .21-.28 rear-exhaust engine; header and tuned pipe; tires; shock and diff oil; and glow fuel

Nickel-plated steel parts

- Front/rear CV driveshafts
- Lightened outdrives
- Steering link
- Camber link

Includes:
3 spring sets
3 swaybar sets

Carbon-fiber components

- Servo tray
- Front plate
- Center diff top plate

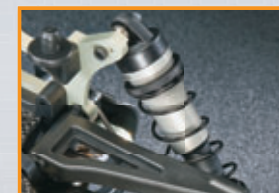

Tires, servos, engine, pipe and fuel tubing not included.

Hard anodizing and CNC-machining helps the Z01-T's lightened aluminum towers outlast anything the track dishes out.

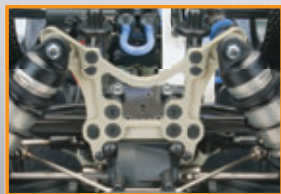

Optimized servo positioning lowers the CG and turns the arm and linkage inboard to eliminate impact damage.

Threaded, hard-anodized aluminum big bore shocks feature polished 4 mm shafts and large volume bodies for maximum durability and dampening.

Outdrives are machined, lightened and nickel-plated, to reduce weight and wear.

Hard-anodized, lightened, CNC-machined aluminum parts

- Rear shock tower
- Front shock tower
- Countersunk main chassis
- Center dogbone driveshafts
- Precision Pivot SystemTM front and rear arm mounts
